

ENTNT

REMOTE TEAMS MADE EASY

— CTC —
₹17.70
LPA

* CTC Equivalent

We are a tech-focused offshore workforce provider. Many of our clients are in the shipping and maritime industry, hiring roles such as accountants, engineers, and customer support agents. We also work across other sectors.

Everything we do is tech-enabled, and we're now looking for software developers to help us deliver solutions—both for our own operations and directly for our clients.

GLOBAL TALENT

Access skilled professionals from around the world.

RELIABLE & SECURE

Enterprise-grade security and data protection.

SCALABLE SOLUTIONS

Flexible engagement models that grow with your needs.

FOCUS ON WHAT MATTERS

We handle the teams. You achieve more.

REMOTE TEAMS MADE EASY

Ready to Start Your Journey?

Join ENTNT and gain real-world development experience while working on international projects from **anywhere in India**.

10 : 30 AM – 7 : 30 PM IST

(with one hour lunch break)

Monday to Friday

**100%
Remote**

Work from
anywhere

About The Role

We are hiring graduates from the Class of 2027. The role begins with a remote internship and transitions into a full-time position after graduation.

Internship

Duration: 6 months /12months

Stipend: US\$300 per month

Format: Remote, full-time

Full-Time

Salary: US\$1000 per month

Format: Fully remote

Hours: 10:30 AM – 7:30 PM IST,
Mon–Fri (with one hour lunch break)

Basic Qualifications

- ✓ Currently pursuing a Bachelor's in Computer Science or related IT technical discipline
- ✓ Proficiency in at least one object oriented programming language (e.g., Java, Python, C++, JavaScript)
- ✓ Understanding of computer science fundamentals, including data structures and algorithms
- ✓ Strong analytical and problem-solving skills with critical and creative thinking
- ✓ Excellent communication skills and collaborative team environment experience
- ✓ Reliable high-speed internet connection for remote work

Preferred Qualifications

- ✓ Knowledge of web development technologies (HTML, CSS, React, Angular, or Vue.js)
- ✓ Familiarity with development tools (IDEs, debugging tools) and relevant frameworks
- ✓ Basic understanding of JavaScript fundamentals and modern libraries
- ✓ Familiarity with responsive design principles and mobile-first development
- ✓ Experience with version control tools such as Git
- ✓ Knowledge of .NET Core and MSSQL (nice-to-have)
- ✓ Understanding of software development lifecycle and agile methodologies

Transparent Compensation Structure

When freshers see salary figures like 16 LPA, it's natural to focus on the headline number. However, in many traditional compensation structures, a significant portion of the advertised CTC includes components such as employer PF contributions, gratuity, retention bonuses, variable pay, stock components, or one-time joining benefits — meaning the actual monthly in-hand amount is often substantially lower than expected.

At ENTNT, we follow a transparent compensation philosophy:

No inflated CTC structures

No hidden salary components

No conditional performance-linked payouts

No delayed or inaccessible compensation elements

What we communicate is designed to reflect the real economic value received by the employee — including direct cash compensation, remote-work savings, and fully company-sponsored workations.

Internship Period Compensation Breakdown

CTC Equivalent: ₹7.5 LPA

Internship Period

COMPONENT	ANNUAL VALUE	DETAILS
 Base Pay Direct Cash Compensation	₹3.42 LPA	Equivalent to a monthly stipend of \$300 USD , credited directly as take-home compensation.
 Remote Work Savings	₹3.00 LPA	Estimated monthly savings include: - Accommodation / Rent: ₹15,000–18,000 - Daily commute & transportation: ₹4,000–6,000 - Food & office lifestyle overheads: ₹3,000–5,000 ✓ Total estimated savings: ~₹25,000/month
 Company-Sponsored Workations	₹1.09 LPA	ENTNT organizes two fully sponsored workations annually (2 weeks each). The company covers: - Flights & travel 4–5 star accommodation - Meals & refreshments - Team activities & experiences
 Total Economic Value	₹7.5 LPA	Reflects the total economic value delivered to interns at ENTNT.

Full-Time Compensation Breakdown

Full-Time

CTC Equivalent: ₹17.70 LPA

Component	Annual Value (₹)	Details
 Base Pay Direct Cash Compensation	₹11.61 LPA	Equivalent to monthly compensation of \$1000 USD , paid directly as take-home compensation.
 Remote Work Savings	₹3.00 LPA	Estimated monthly savings include: - Accommodation / Rent: ₹15,000 – ₹18,000 - Daily commute & transportation: ₹4,000 – ₹6,000 - Food & office lifestyle overheads: ₹3,000 – ₹5,000  Total estimated savings: ~₹25,000/month
 Company-Sponsored Workations	₹1.09 LPA	ENTNT organizes two fully sponsored workations annually (2 weeks each). The company covers: - Flights & travel 4–5 star accommodation - Meals & refreshments - Team activities & experiences
 Tax Savings	₹2.00 LPA	Calculated based on presumptive taxation under Section 44ADA and applicable rebate provisions, significantly reducing effective tax liability compared to a standard salaried structure.
 Total Economic Value	₹17.70 LPA	Sum of all components reflecting total economic value received.

Tax Savings – Detailed Explanation

1. Normal Job Comparison (₹16 – ₹17 LPA Salary)

Assuming annual taxable income of ₹16.69 LPA
(New Regime, FY 2024–25)

Income Slab (₹)	Tax Rate	Tax Amount (₹)
0 – 3,00,000	0%	0
3,00,000 – 6,00,000	5%	15,000
6,00,000 – 9,00,000	10%	30,000
9,00,000 – 12,00,000	15%	45,000
12,00,000 – 15,00,000	20%	60,000
15,00,000 – 16,69,000	30%	50,700
Total Tax (before cess)		₹2,00,700
Health & Education Cess (4%)		₹8,028
Total Tax Payable		≈ ₹2,08,728

Thus, for a typical ₹16–17 LPA salaried employee, approximate annual tax outgo is ₹2.0 – ₹2.1 Lakh.

2. Your Case (ENTNT Consultant Model)

Annual income (from \$1000/month): ₹11.61 LPA

Particulars	Amount (₹)	
Annual income	₹11,61,000	
Under Section 44ADA (Presumptive Taxation)		
Only 50% of income is considered taxable	₹5,80,500	
Tax Calculation on ₹5,80,500		
0 – 3,00,000	0%	0
3,00,000 – 5,80,500	5%	₹14,025
Total Tax (before cess)		₹14,025
Health & Education Cess (4%)		₹561
Tax Payable (before 87A Rebate)		₹14,586
Less: Section 87A Rebate (Income < ₹7,00,000)		(₹14,586)
Final Tax Payable		₹0

Since taxable income is below ₹7 Lakh, Section 87A rebate makes the tax liability NIL.

Tax Savings Benefit

Compared to a standard salaried job, you save approximately:

≈ ₹2.00 Lakh per year

(Effective take-home advantage)

Note: Calculations are indicative and based on New Tax Regime (FY 2024–25).
Actual tax outcome may vary based on individual circumstances and future tax law changes.

TECHNOLOGIES

At ENTNT, our technology stack is built around a **Microsoft**-based ecosystem. Our core setup includes **SQL Server** for data management, **C#** and **.NET** for backend and API development, and **React** and **Angular** for frontend applications. For mobile, we use **React Native**, which allows us to deliver cross-platform apps with a single codebase.

We also make extensive use of **Azure DevOps** for version control, automated builds, continuous integration and deployment, and project tracking. In the area of Artificial Intelligence, we work with technologies such as machine learning frameworks (**TensorFlow**, **PyTorch**), NLP models, and **Azure AI** services for tasks like text analysis, document processing, predictive analytics, and intelligent automation.

OUR TECHNOLOGY FOCUS AREAS

Data Management

Reliable and scalable data solutions

Application Development

Modern frameworks for robust and scalable apps

Cross-Platform Mobile

Build once, deploy everywhere

DevOps & Automation

CI/CD, automation, and seamless deployments

Artificial Intelligence

Intelligent solutions for smarter decisions

LEGACY

We continuously evaluate and adopt the best technologies to build scalable, secure, and intelligent solutions for our customers.

Hiring Process

Our hiring process is designed to be transparent, thorough, and candidate-friendly.

1

Campus Visit & Company Presentation

- First interaction on your campus.
- Introduction to ENTNT, our technology stack, projects, and company culture.
- Helps you understand who we are before moving ahead.
- Usually conducted on the same day as the assessment.

2

Initial Assessment

- Short online test (30–45 minutes).
- Evaluates understanding of programming concepts and web development.

3

Coding Round

- Problem-solving and coding challenges.
- Evaluates your logical thinking, coding skills, and ability to write clean and efficient code.

4

Technical Interview

- Discussion with HR Manager, Chief Solutions Officer, and Engineering Lead.
- Covers your take-home assignment and a light technical conversation.
- Focus on your technical knowledge, problem-solving approach, and real-world understanding.

5

Final Interview

- Meeting with our CTO.
- High-level discussion on technology, software engineering practices, and your perspective.
- Focus on your potential, mindset, and alignment with ENTNT's vision.

Meetups & Workations: The Fun Side

To make sure remote life never feels isolating, we meet up 2–3 times a year in different cities. Recent trips have taken us to Manali, Jaipur, Udaipur, Goa, and Mumbai. These meetups last around 3–4 days and are packed with activities that bring everyone closer.

On top of that, we also do workations that go on for 1–2 weeks—where we work together during the day and explore new places after hours. They're a great mix of productivity and fun.

The truth is, the team itself makes these experiences memorable.

What makes it special?

Stronger Bonds

Real conversations, inside jokes, and lasting friendships.

New Experiences

Exploring new places, tasting new food, creating new stories.

Better Together

We collaborate better because we connect beyond the screen.

Memories to Keep

From adventure hikes to late-night talks—moments we cherish.

Whether it's solving problems at work or planning late-night outings during a meetup, **the vibe is always energetic and fun.**

The ENTNT Way

ENTNT isn't just a workplace—it's a community of problem-solvers, innovators, and collaborators. From helping freshers take their first confident steps, to building AI-powered solutions that reshape industries, to making memories at our meetups and workations, life here is about growing together.

People First • Impact Always • Growth Together

These values guide us in everything we do.

Solve Boldly

We tackle meaningful problems with curiosity and courage.

Build for Impact

We create solutions that drive real change and progress.

Grow Together

We learn, support, and celebrate every step.

Make Memories

We balance hard work with experiences that last a lifetime.

And the journey?
We're only just getting started.
